EDUCATION

Pace University, Seidenberg School of Computer Science and Information Systems — New York, NY
B.S. in Cybersecurity, Minor in Italian Studies | GPA: 3.89 — Dec 2027
Dean's List First Honors — Spring 2025 - Spring 2026
Relevant Coursework: Digital Forensics, Secure Software Development & Analysis, Information Security Management, Database Management, Computer Organization, Object-Oriented Programming

PROFESSIONAL EXPERIENCE

Corveonic LLC — New York, NY
Co-Founder & Security Lead — Jul 2026 - Present

- Co-founded an AI and workflow automation consultancy and delivered its first paid engagement for a mid-sized client.
- Built an append-only audit log in Supabase Postgres, enforced by a database trigger, so production data changes can't be altered.
- Hardened client portal access with forced row-level security, short-lived scoped JWTs, secure session cookies, and security headers.
- Reviewed secret-manager audit logs for anomalous access and set a rotation schedule for production database credentials.
- Built a GitHub Actions gate using gitleaks and a custom Python linter that blocks pull requests containing secrets or PII.

Pace University — New York, NY
ITS Tech Zone & Client Support Office Student Assistant — Nov 2025 - Present

- Create, document, and resolve walk-in support tickets in TeamDynamix (TDX) for 106 workstations across the Tech Zone and two computer classrooms, serving 20+ users per shift.
- Collected forensic artifacts with KAPE from a potentially compromised lab workstation with the ITS supervisor, then escalated the collection to Pace's security team.
- Verify user identity before account unlocks and password resets, and resolve Microsoft 365 access issues.
- Troubleshoot hardware, network connectivity, and printing issues, escalating MFA lockouts and cases needing elevated permissions to senior IT staff.
- Recognized a phishing email from its indicators and routed the user to Pace's security team for reporting.

TECHNICAL COMPETITIONS

NSA Codebreaker Challenge — Sep 2026 - Present

- Solved Tasks 1-3: log analysis, memory forensics with Volatility 3, and reverse engineering a binary with Ghidra.

Collegiate Penetration Testing Competition (CPTC) — Sep 2026 - Present

- Advanced past the national qualifier to Regionals (Oct 24, 2026), contributing to Pace's submitted technical assessment.

Northeast Collegiate Cyber Defense Competition (NECCDC) — Jan 2026 - Mar 2026

- Advanced to Regionals representing Pace University. Managed Teleport for privileged access control and hardened Linux systems.
- Reviewed Teleport audit logs, active sessions, and session recordings for signs of red team activity.

National Cyber League Competition (NCL) — Oct 2025 - Nov 2025

- Ranked 639th/7,876 nationally (top 8% in the individual game) and 1st at Pace University. Strongest categories: log analysis, OSINT, password cracking, cryptography, and network traffic analysis.

TECHNICAL PROJECTS

Phishing Domain Classifier | Python, scikit-learn | github.com/NclRsi46/phishing-detection-ml

- Found that the first version's 99.46% accuracy came from a data leak and rebuilt the pipeline to score domain names only.
- Redesigned evaluation with splits grouped by phishing campaign, time-based testing, and recall measured at fixed false-positive rates.
- Compared hand-built features with a character n-gram model and traced much of its gain to TLD abuse and phishing-kit wording reused across campaigns.

TECHNICAL SKILLS

Security & Forensics: KAPE, Volatility 3, Wireshark, tcpdump, Splunk, Windows Event Viewer, Ghidra, Burp Suite, OWASP ZAP, Nmap, gitleaks
Platforms & DevSecOps: Supabase, PostgreSQL, GitHub Actions, Git, TeamDynamix
Languages & Scripting: Python, SQL, Bash, PowerShell, Java, C, C++, C#, JavaScript, HTML, CSS
Operating Systems: Windows 10/11, Linux (Kali/Ubuntu), macOS
Certifications: ISC2 Certified in Cybersecurity (CC)

ORGANIZATIONS

ISC2 Member — Jan 2026 - Present
Pace Cybersecurity Club, Secretary — Apr 2026 - Present
National Society of Leadership and Success, Member — Aug 2025 - Present

LANGUAGES

English (Native) | **Italian** (Intermediate)
